Portfolio: aykhandadashov.com

Summary

I'm a Software Developer with a strong focus on Front-End Development, passionate about crafting interactive and visually engaging web experiences. I love building creative projects, experimenting with new technologies, and currently exploring the Spotify API and Google Chrome extensions to create dynamic and personalized user experiences.

Work Experience

BonApp **Riga, Latvia**
Front-End Developer *Dec 2024 – Present*

- Collaborated on building scalable web applications using React, ensuring responsiveness and performance optimization.
- Implemented state management with Redux to maintain predictable and efficient UI workflows.
- Adopted Monorepo architecture to unify codebases and streamline development across multiple projects.
- Used Azure DevOps for task creation, branch management, and fostering seamless collaboration in agile development workflows.
- Designed wireframes and prototypes for a large-scale project using Figma, facilitating clear communication between design and development teams.

Webzool **Los Angeles, CA**
Front-End Developer (Remote) *June 2022 – Jul 2024*

- Developed dynamic and responsive web pages using Next.js, React.js, Redux, and MobX to optimize performance and user experience.
- Enhanced Search Engine Optimization scores for mobile and desktop by 60% through efficient use of Next.js server-side rendering and optimization techniques.
- Designed and implemented interactive mini-games, improving user engagement.
- Automated workflows by implementing CI/CD pipelines using GitHub Actions, increasing deployment efficiency.

Jeyhun Imanov Studio **Baku, Azerbaijan**
Python Developer *Jul – Nov 2021*

- Developed web parsers using Python and libraries like BeautifulSoup, Selenium, and Flask.
- Contributed to both front-end and back-end development, integrating HTML, CSS, JavaScript, and Python.
- Enhanced code maintainability by implementing modular and reusable components.

Azercosmos **Baku, Azerbaijan**
ML Engineering Intern *Jul – Aug 2021*

- Gained hands-on experience in machine learning engineering and Python frameworks such as TensorFlow.

Technical Skills

Programming Languages: JavaScript, TypeScript, C#, Python
Frontend Development: React.js, Next.js, Vue.js, Nuxt.js
Backend Development: Node.js, .NET
UI/UX Design: Wireframing, Figma, Ant Design, Tailwind CSS, Material-UI, SASS/SCSS
State Management: Redux, MobX
DevOps & Cloud: Azure DevOps, CI/CD Pipelines, Docker, GitHub Actions
Development Tools: Visual Studio Code, Git, Postman, Vite, Bash/Shell (Linux)

Education & Certifications

Code Academy
Certificate Course in Full-Stack Web Development   *Sept 2019 – April 2020*

Riga Technical University
Bachelor of Science in Computer Science   *Sept 2023 – June 2024*
(Completed 2 semesters before transferring to ISMA)

ISMA (University of Applied Sciences)
Bachelor of Science in Information Systems   *Sept 2024 – Current*

Language Skills

Azerbaijani – Native
English – Fluent
Russian – Native
Turkish – Fluent
TOEFL iBT Score: 93/120   *(Date: Aug 2019)*
