Portfolio: aykhandadashov.com

Summary

I'm a Software Developer focused on building scalable web applications and data-driven products. I enjoy working across the full stack, from crafting responsive UIs to integrating APIs and analytics tools. Recently, I've been exploring AI integration and mobile app development, turning creative ideas into real products.

Work Experience

Adsmom — **Riga, Latvia**
Software Developer — *Aug 2025 – Present*

- Built semantic search for ad discovery using vector embeddings, enabling users to find relevant ads across 200M+ Meta advertisements.
- Designed a relevance-based ad scoring system that prioritizes ads by reach, active status, and recency, improving the accuracy of competitive insights.
- Led frontend architecture using Next.js, React, and GraphQL, delivering end-to-end features including onboarding flows and platform-wide UI redesigns.
- Integrated with Meta Ad Library API for ad data ingestion, managing token lifecycle and API workflows across the platform.
- Built Metabase dashboards for business analytics and integrated PostHog with Slack for real-time user activity notifications.

BonApp — **Riga, Latvia**
Front-End Developer — *Dec 2024 – Jul 2025*

- Adopted Monorepo architecture to unify codebases and streamline development across multiple projects.
- Managed development workflows using Azure DevOps for task tracking, branch management, and agile collaboration.
- Designed wireframes and prototypes for a large-scale project using Figma, facilitating clear communication between design and development teams.

Webzool — **Los Angeles, CA**
Front-End Developer (Remote) — *June 2022 – Jul 2024*

- Developed responsive web apps with Next.js and React.js, integrating MobX/Redux for state management and optimizing UX.
- Enhanced Search Engine Optimization scores for mobile and desktop by 60% through efficient use of Next.js server-side rendering and optimization techniques.
- Designed and developed interactive promotional games including advent calendars and reward-based challenges, driving user engagement.

Technical Skills

Programming Languages: JavaScript, TypeScript, C#, Python
Frontend Development: React.js, Next.js, Vue.js, Nuxt.js, GraphQL, Redux, MobX
Backend Development: Node.js, NestJS, PHP/Laravel, .NET, Prisma, Drizzle
UI/UX Design: Figma, Ant Design, Tailwind CSS, Material-UI
Analytics & Data: PostHog, Metabase, LM Studio
DevOps & Cloud: Azure DevOps, Docker, Jenkins, GitHub Actions, Git, Postman

Education

Riga Technical University
Bachelor of Science in Computer Science *Sept 2023 – June 2024*
(Completed 2 semesters before transferring to ISMA)

ISMA (University of Applied Sciences)
Bachelor of Science in Information Systems *Sept 2024 – Current*

Certifications & Programs

Web Development Bootcamp *Completed: July 2025*
Magebit – Riga, Latvia

- Built a fully functional e-commerce website using Laravel (PHP), incorporating industry best practices.
- Project received 1st place for **Best Overall Project**.
